

This is a technical map of a railway corridor, likely in Sweden, showing the layout of tracks, stations, and surrounding urban areas. The map is oriented vertically, with a north arrow in the top right corner.

Key Features and Labels:

- Top Section:** Labeled "Kallstaden" and "Kallstaden". It shows a residential area with buildings and a road labeled "Kallstaden".
- Central Section:** The main railway corridor runs vertically. It includes several stations and tracks, with labels like "TUNADAL 1:1", "Seraren", and "Nederkorsta".
- Right Side:** Labeled "Tunadals sågverk" (Tunadal sawmill) and "Industrimråde" (Industrial area). It shows a large industrial complex with various buildings and tracks.
- Bottom Section:** Labeled "Nederkorsta" and "Tunadalshamn" (Tunadal wharf). It shows a residential area with buildings and a road labeled "Nederkorsta".
- Codes and Identifiers:** The map includes several codes, such as "2921SKÖ", "DP-404", and "DP-312", which likely refer to specific railway lines or sections.
- Infrastructure:** The map shows a complex network of tracks, including main lines, sidings, and loops. It also depicts roads, bridges, and other infrastructure.

The map is a detailed technical drawing, likely used for planning and construction purposes. It provides a clear view of the railway corridor and its integration with the surrounding urban and industrial environment.
